

Helicopter Long Lines manufactured by Lift-It® feature the finest materials and the same heavy duty fabrication skills required to manufacture Slings capable of carrying serious weight. HEC and Long Lines rated at 1,000 Lbs. receive the same care and attention to detail as Slings rated at 100,000 Lbs.

Responsibility for any amount of weight from a manufacturing and load handling perspective should be based upon destruction testing. We are seriously committed in our dedication to excellence and operate 75 ton and 300 ton, in house, test machines calibrated to ASTM E4 standards. All Lift-It® HEC and Helicopter Long Lines are proof tested and certified.

Lift-It® Long Lines provide the greatest value for your purchasing dollar. Lift-It® Long Lines featuring robust Dyneema® SK-75 fiber, YKK® Zippers,

If you are not buying your Helicopter Long Lines and Rigging from my Uncle Mike, you really need to talk to me.

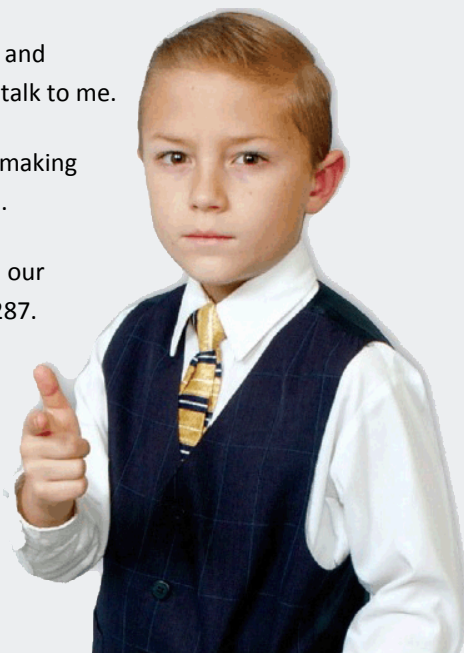

Uncle Mike and his friends at Lift-It® have been making slings and providing training for thirty-five years.

When you're between a rock and hard spot, call our 24/7/365 Emergency Order Number 909.524-9287. We'll make you famous.

Sincerely

Bailey J. Bernard
